Adrianne J. Ross, D.P.M.

" I have found Dr. Ross to be bright, diligent, and knowledgeable. She is a skillful surgeon who understands not only the mechanics of surgery, but also the biomechanics and anatomy which support the procedure. She is an excellent diagnostician in the outpatient office setting. She is a strong leader who will prove to be an asset to future practices and institutions."

- R. Todd Hockenbury, M.D.
